

# For Matcher customers to use in their social media

IMT Matcher - our state of the art witnessing and barcode labelling system

IMT Matcher helps us to make sure that everything involved with our patients' treatment is securely and accurately identified and recorded.

IMT Matcher - our state of the art witnessing and barcode labelling system

Matcher allows us to give patients a complete photographic history of every procedure in a patient's cycle.

## For Matcher customers to use in their social media

IMT Matcher - our state of the art witnessing and barcode labelling system

Patients love their Matcher photo ID cards – knowing their identity and their samples are being verified and tracked at every stage of their treatment.

IMT Matcher - our state of the art witnessing and barcode labelling system

With Matcher, patients can be confident that every procedure carried out will be witnessed, photographed and kept in their records.
